

# Skateboard Safety

---

- Wear closed-toe shoes
  - Check for rust on your wheels and trucks
  - Watch the road! Patches of sidewalk can be uneven and debris from trees can create safety hazards for skateboards
  - If it gets crowded, walk your board.
  - Communicate with other skaters and pedestrians to avoid collisions.
  - Practice!
-

# Rules & Risks

Skateboarding in an unsafe manner can cause injury on campus

- Be aware of your surroundings.
- Obey all posted signs, especially those that say “No Skateboarding” in certain areas
- As a skateboarder, you are considered a pedestrian. Bike paths are only for cyclists.
- Trick skateboarding is prohibited on campus.
- Skateboarders must never attach themselves to bicycles, cars, or other vehicles.
