# Timely Warning

Wednesday, November 15, 2017 - 5:04pm

On November 14, 2017, the UCSB Clery Office received a confidential report of a rape and a confidential report of a fondling that occurred approximately two weeks ago at UCSB campus student housing.

UCPD reminds the campus community of the following safety tips and resources:

## Safety Tips

- Do not feel obligated to do anything you do not want to do. “I do not want to” is always a good enough reason.
- If you start to feel concerns about a person or a situation, trust your instincts and try to remove yourself as quickly as possible from the potential threat, even if it is someone you know and even if it feels awkward to leave.
- Perpetrators are responsible for sexual assaults. Crime victims are never responsible for the behavior of perpetrators.
- If you are going out alone, make sure that someone knows where you are going, who you will be with, and when you expect to return.
- Alcohol and/or drugs are frequently used to facilitate sexual violence by reducing a person’s ability to respond effectively, impairing memory, and increasing feelings of self-doubt or blame. When drinking, consider your surroundings, be aware of personal limits, and look after friends who appear to be intoxicated.
- If you think someone is at risk of assault or abuse, you should consider it an emergency and act to support that person. You can call the police or ask for help from other people, intervene directly if safe, or create a distraction to help remove the potential victim from the situation.

## Consent

- Do not engage in sexual activity without affirmative consent from your partner. Consent is a clear and freely given “Yes,” not the absence of “No.”
- You must continually get consent for sexual activity. It is your responsibility to make sure you have affirmative and ongoing consent from your partner.
- People who are incapacitated by alcohol or drugs cannot give consent.
